PREFACE

This Index covering cases reported from 1961 to 1970 is the continuation volume to the Index for 1951 to 1960 published by the Council of Law Reporting to enable practitioners to find any reported cases with the maximum of speed and the minimum of effort.

The Index based on *The Law Reports, The Weekly Law Reports* and *The Restrictive Practices Reports* incorporates references for all series of full reports including

All England Law Reports
Criminal Appeal Reports (from volume 53)
Knight's Industrial Reports
Lloyd's Law Reports
Local Government Reports
Road Traffic Reports
Tax Cases and Tax Case Leaflets

Thus the table of Cases Reported gives references for all of those series so that this Index may be used in conjunction with any of them.

The table of Subject-Matter covers all cases reported in the Council's own series and includes references to most cases appearing exclusively in the specialist reports; it contains comprehensive cross-references. Following the Subject-Matter the reader will find Indexes for Cases, Statutes, Statutory Instruments, Standard Forms of Contract and Overseas Enactments Judicially Considered. Thus if a judge has said anything in any report covered by this Index which might be argued to affect the weight or effect of any previous decision, or the meaning of any enactment, a reference will be found in the appropriate table to the previous decision or enactment. **The table of Cases Judicially Considered is not limited to decisions mentioned in the headnotes of the reports.**

The more recent decisions are often the most difficult to find and the Index will continue to be brought up to date week by week in *The Weekly Law Reports* supplemented by periodic " pink books " sent to *Weekly Law Reports* subscribers and by " red books " in which the Index as from January 1, 1971, will be consolidated anew at the end of each year.
